

## HEO Machine Training

This intensive hands-on program provides students with the operating fundamentals and 'seat time' experience to develop entry level competency as a heavy equipment operator. Students learn essential operating fundamentals by completing practical earth moving exercises. A step-by-step progression introduces increasingly advanced skills and operating principles. Pre-operational checks, equipment maintenance, interpretation of drawings and grades stakes, basic grade checking instruments, and constant reinforcement of safety are important elements of the training. The program provides 3 to 8 weeks of training, (25 hours per week) depending on the machine type. Registration ongoing.

Excavator	8 weeks	\$ 13,600.00	
Backhoe	6 weeks	\$ 10,200.00	
Dozer	6 weeks	\$ 10,200.00	
Grader (entry level)	6 weeks	\$ 10,200.00	
Rock Truck/Loader Combo	4 weeks	\$ 6,800.00	
Front End Loader	3 weeks	\$ 5,100.00	
Articulated Rock Truck	3 weeks	\$ 5,100.00	(need airbrake endorsement)
Skid Steer	3 weeks	\$ 5,100.00	
Dump Truck & Pup	2 weeks	\$ 3,400.00	(need CLS 1 and airbrake endorsement)

There is a one time application fee at enrolment.

\*tuition fees subject to change without notice

**Ongoing classes for all machines, custom machine schedules can be designed to meet your requirements**
